» 2.270 km

» 32.000 meters elevation gain

» Solo & Team

» Start: 16. August 2009, Schärding

# ONE EVENT – TWO RACES

## **Extreme** RACE AROUND AUSTRIA

The solo challenge in Europe, half as long as the RAAM but not to be underrated. You have done your 1000 km races, you have taken part in 24 hour races – this is the next step for you. If you want to know what comes beyond exhaustion, register for the solo race.

## **Team** RACE AROUND AUSTRIA

### **Adventure**

The challenge for teams to achieve something really special. Participating in the team competition is basically possible for everyone (e.g. in an 8 person team, each biker will ride around 12 hours in 4 days).

### **Team spirit**

Sense of achievement and perseverance – not just for the riders, but also for the helpers and the crew. While the bikers have their breaks, the crews will be working and moving on around the clock.

### **Navigation**

Reading maps correctly, finding right routes, planning ahead – criteria possibly decisive for the race. Not just the bikers, the team also contribute to your success.

## **Adventure** RACE AROUND AUSTRIA

Due to the possibility of participating in teams, this race is not only suitable for professional bikers, but provides the perfect setting for biking based on the philosophies of adventure and sportsmanship. The generous time allowance makes it possible for recreational bikers to participate successfully as well.

**IN ADDITION:  
Two high end KTM roadbikes  
to be won in extra scores.**
